We'll handhold you to
globalise your business!

Federation of Karnataka Chambers of
Commerce & Industry, Bangalore.

In today's era of liberalization, privatization and globalization of the Indian economy, it is very essential for an apex trade body like the Federation of Karnataka Chambers of Commerce & Industry (FKCCI) to actively engage in International Business Development and supplement the efforts of the Union and State Governments in this regard.

FKCCI's major strength is in the realm of networking with the district level Chambers / Associations in Karnataka as well as with the several trade bodies overseas. In order to render dedicated, focused and value-added services to the exporters and importers in Karnataka, the EXIM Club, an exclusive cell of the FKCCI for development of International business in Karnataka, was formally launched in October 2005.

Manned by a full-time professional team, the EXIM Club offers services to its members primarily in the following areas:

Counselling/Consultancy

Empanelling export agencies:

To empanel export related organisations like FIEO, ITPO, VITC, Export Promotion Councils, DGFT, EXIM Bank, ECGC, Customs, RBI, Commercial Banks, Insurance Companies, etc., through MoUs for counselling of its members.

Enlisting experts with EXIM Club:

To enlist trade experts in the areas of documentation, marketing, procedures, formalities, pricing, e-commerce, packaging, quality systems, etc., for providing value added services to members at nominal charges.

Co-ordination

To co-ordinate with Customs /Central Excise / Port Authorities etc.

Training Activities

To network with FIEO, VITC and other Export Promotion Councils for organizing Training Programmes/Seminars/Workshops, etc., related to international trade.

Information Dissemination

There are two strategies:

To provide value added services like live trade enquiries etc.

To connect all the District level Chambers of Commerce/Associations through internet connectivity and video conferencing facilities to EXIM Club. This will provide a live platform to all exporters/importers in the Districts to have direct interaction with experts in Bangalore and also access market information.
